THE SOVIET "GETS RID OF GOD"

It is difficult for those who li in a land where freedom of re gious belief and worship is funda mental in government and in pop ular thinking, to realize the ex tremes to which the present Rus sian government has gone i "abolishing God."

For years there has been a con stant drive by the heads of Soviet government to sell the people th no-God idea. The thought is in stilled into the youth of the land without ceasing, and a generation is rising which knows neither lovnor fear of Deity.

It is interesting to read a recent statement of Senator Millard Tyd ings of Maryland in an address o conditions in Russia, Senator Tyd-

ings said: "Thirteen years ago I went to Russia to study the Russian sys tem. I have kept in touch with Russian history and events even since the revolution of 1917. What a dark period the last 25 years of Russian history has been. Russia today is the most barbarous, crue relentless, remorseless, and villianous government in modern times. even little children were murdere by the mobs which roamed everywhere, torturing their victims, women and children with the aban-

WHY I GO TO CHURCH

I. IT IS ONE PLACE I DON'T HAVE TO GO! I have o be on my job on time. I am compelled to go to the doctor and dentist at times, but I don't have to go to church. Don't get the idea that I think it is not a duty and an obligation; I do think so, but it is a duty and an obligation that I can shirk and still be considered respectable by my friends. However, I suppose there is still a little spark of individualism about me. I can choose with my crowd not to go or I can choose to go. So, I choose to go.

II. I AM ASHAMED NOT TO GO TO CHURCH! That's a simple fact. Many times when some member of my family is sick, when my business gets in a jam, I pray. I simply have to pray. I am driven to it at such times. I make promises to God. I like for my preacher to come. I like to have church people know about it. You know, I just can't forget all this. Somehow I feel it is down right cheap to take all that I do from God and then pay no attention to His church except when I am in trouble. I know a lot of people just like me who don't go but I am ashamed not to go.

III. I GO TO CHURCH BECAUSE I AM A FATHER! I love my children. I give them six days of hard work every week. Sometimes I am tired on Sunday but I can't get away from the fact that God expects me to be on the job as a father for my boys and girls on Sunday as well as other days. I may be old fashioned but somehow I can't help but feel that God is going to hold me responsible for my children, and if so, I need the help the church can give and that I can get nowhere else,

IV. I GO TO CHURCH BECAUSE THERE IS A POSI-TIVE NEED IN MY LIFE FOR GOD! I have been able to find God nowhere else as definitely as I have at church. I hear people say that a man can worship God anywhere. That has not been true with me. For me the church is a necessity because it is there I always find God.

Lesson for April 21

Micah 4:3.

Peace on earth! Why, that is hardly more than a phrase which we recall at Christmastime as we think of the song of the angels. Yet now is the time to assure people that there will be peace on earth. Peacemakers who are now silent were striving to bring in a manmade peace, following a will-o'-thewisp. Let us tell men about the real peace which will come when the Prince of Peace sets up His kingdom. Let us urge upon them the glad acceptance of His personal kingship in their hearts that they kingship in their hearts that they ran away from Columbia Univer

Vainly do men labor to bring about a lasting peace built upon the words of men, for the moment there seems they become mere scraps of paper.

Covering the disease along these incorrupt practice act sets count which must show all explainments and service of the stray or ownerless dog is an importance.

The ballot is long and contains in furtherance of the stray district, circuit, counting the state, dis With one or two exceptions each beat committeeman, and the subcommitteeman, and the subcommitteeman, and the subcommittee named to check the several lists, exercised great care in trying to give each and every in this means that statements can be filed any day from next Saturday. All this immunization for their dogs of adult education which includes as soon as possible.

Lotus Ham, Jr., age 12, of Elba, how to fill the ballot, but it will have to give each and every in this means that statements can be filed any day from next Saturday. All this means that statements of the County, it was pointed out by of adult education which includes as soon as possible.

Lotus Ham, Jr., age 12, of Elba, how to fill the ballot when ne dog owners are advised to obt

Every war has been followed sooner or later by peace. Even in the absence of indications in that direction at the present time, peace will eventually come to Europe again. When that peace does come, the United States will be called on to participate in the making and safeguarding of its terms. at it is impossible for one nation to prosper while others suffer the ravages of economic illness, the United States will be asked to make its contribution to the stabilization of world economy.

mendous, and will call for us to aid in rehabilitating an exhausted and war-torn world by redistributing on some plan, a part of the gold hoard now lying buried in Kentucky. The manner in which this distribution of world wealth takes place will have important bearing on the agricultural South. Trade agreements must be made with nations which are to receive shares of the American gold. Without able Southern leadership in Congress, occupying important committee appointments, it would not be surprising to find South-

facturers of the East and Middle West. Thankfully, the South is today ably represented on the most important committee in Congress, the committee of banking and currency. Its chairman is the Hon. Henry B. Steagall, representative of the Third Congressional District, of which Dothan and the Wiregrass are a part. As chairman of the banking and currency committee, Mr. Steagall will have an all-powerful voice in the course America will follow in the world settlement of economic ills. It will be his voice, and his initiative, which will prevent the industrial sections from exchanging American gold for foreign agricultural products to be dumped in this country at the expense of American farmers.

In efficiently and expertly administering the affairs of his committee, Mr. Steagall has won the respect and admiration of both Democratic and Republican leaders in Congress. An acknowledged leader in important legislation, Mr. Steagall

It is extremely doubtful if farmers of the Third District could choose from among the entire lower house a more capable or a more sincere friend to their cause. Mr. Steagall's accomplishments are rarely accompanied with ballyhoo and fanfare. He goes about his official duties in a quiet, methodical manner, which produces results not only for his own constituents, but for the entire South and nation.

The Third District will hesitate a long time before it turns its back on Henry Steagall, whose presence in Washington assures this section of outstanding representation, or seriously threatens to trade him off in exchange for an unknown quantity, who as a Congressional freshman would be as amusing as a chubby baby yelling his head off for dry britches—and equally as helpless.

of the banking and currency committee for the protection of the farmers of this district, with whose problems he is familiar and capable to cope.—The Dothan Eagle.

South When Peace Comes

This country will find it not only necessary, but expedient to assist in the creation of a new basis for the distribution of world wealth and the elimination of trade barriers whose presence had important bearing on the renewal of hostilities in the current conflict. The American sacrifice will be tre-

ern farmers sold down the river by the tariff protected manu-

finds himself in position today to render a great service to the agricultural South, a demonstration of which came when, associated with Senator Bankhead, he led a successful fight over the heads of AAA officials and caused the reinstatement of a substantial share of the peanut acreage of which this district had been deprived.

When peace comes, Henry Steagall should be chairman

Sales-CHEVROLET-Service

Over 90 per cent of the business of this country is carried on by checks. Checks have won out in the field of practical business. They are cheaper, safer and handier than cash. Carry a bank account and use checks instead of money. It means both more character and more

a lot of satisfaction in driving a clean car.
